

Aurelius Robotics Corporation (ARC)

Company Information

Founded: 2017

Headquarters: Bengaluru, India

Employees: Approximately 1,850

CEO: Dr. Maya Srinivasan

CTO: Daniel Brooks

Annual Revenue (2025): ₹1,240 crore

Company Overview

Aurelius Robotics Corporation (ARC) specializes in autonomous systems, industrial robotics, artificial intelligence, and underwater exploration vehicles. The company develops robotic platforms for manufacturing, defense research, offshore inspection, agriculture, and disaster response. Research centers operate in Bengaluru, Pune, Singapore, and Munich. Manufacturing takes place in Hosur, Tamil Nadu.

Business Divisions

Industrial Automation

Products: ARC Arm X5, VisionInspect Pro, SmartFactory OS.

Clients: Orion Motors, Zenith Electronics, GreenSteel Manufacturing.

Marine Robotics

Products: OceanSeeker AUV, CoralMapper, DeepVision Sonar Suite.

Applications: Pipeline inspection, shipwreck mapping, environmental monitoring, offshore wind farm inspections. Maximum operating depth: 4,500 meters.

Agricultural Intelligence

Products: CropEye Drone, SmartSoil Sensor, AquaSense Irrigation Controller. Provides irrigation scheduling, fertilizer recommendations, disease detection, and yield forecasting.

Research Department

ARC invests approximately **18%** of annual revenue into R&D.; Current research includes swarm robotics, edge AI inference chips, battery technologies, computer vision, autonomous underwater navigation, and multi-agent coordination systems. The company has filed **96 international patents** since 2018.

Employee Structure

Departments include Software Engineering, Mechanical Engineering, Electronics, AI Research, Data Engineering, Cloud Infrastructure, HR, Finance, Legal, and Sales. The Data Engineering team maintains telemetry pipelines using Apache Spark, Apache Airflow, PostgreSQL, AWS S3, Delta Lake, and Databricks. Telemetry from over **38,000 deployed robots** is processed daily.

Cloud Infrastructure

ARC migrated from on-premises infrastructure to AWS during 2023. Services include Amazon S3, AWS Lambda, Amazon ECS, Amazon RDS, CloudWatch, IAM, and AWS Glue. Approximately **14 TB** of robot telemetry is collected daily.

Employee Benefits

Flexible work hours, health insurance up to ₹15 lakh, annual learning budget of ₹80,000, remote work up to three days per week, free certification platforms, mental wellness counseling, and gym reimbursement.

Leave Policy

Annual Leave: 24 days
Sick Leave: 12 days
Maternity Leave: 26 weeks
Paternity Leave: 15 working days
Bereavement Leave: 5 days
Carry forward: up to 10 unused annual leave days.

Security Policies

Employees must enable MFA, change passwords every 90 days, encrypt company laptops, report incidents within one hour, and complete cybersecurity training every six months. USB storage devices require Security Office approval.

Office Locations

Bengaluru: Headquarters, AI Research, Software Engineering, HR.
Pune: Industrial Automation and Quality Assurance.
Hosur: Manufacturing Plant.
Singapore: Asia-Pacific Sales and Marine Robotics.
Munich: European Research Center.

Sustainability

ARC aims to achieve carbon neutrality by 2032. Initiatives include solar-powered manufacturing, electric vehicles, water recycling, battery recycling, and carbon offset partnerships. The Hosur plant generates **42%** of its electricity from solar energy.

Financial Highlights (2025)

Revenue: ₹1,240 crore
Net Profit: ₹184 crore
R&D Investment: ₹223 crore
International Customers: 37%
Government Contracts: 22%
Private Sector Contracts: 78%

Upcoming Projects (2026)

OceanSeeker X2, AI-powered warehouse robots, Autonomous railway inspection robot, Swarm drone platform, Hydrogen-powered underwater vehicle, Satellite-assisted navigation for autonomous fleets.
